Fall 2020

Have you ever tasted a *real* roasting chicken? There's nothing like it! Once you taste farm-grown broilers, it will be hard to go back to grocery store chicken.

Raised locally, our Bluebird Ridge Cornish Cross broilers are free-range—going outside as they wish where they scratch for worms, grubs, insects and plants, supplemented with broiler mash and plenty of fresh water. They are not given antibiotics, medications, or any hormones to increase growth. The result is a meaty, juicy bird which is great for roasting.

Our birds are processed at a licensed facility and dress out between 7 and 10 pounds—almost the size of a small turkey. They are packaged as whole birds and can be ordered frozen or fresh. *Estimate space in your freezer when ordering because these birds do take up some room.* We charge \$2.50 per pound and ask a \$5.00 deposit per bird at the time of ordering, which will be deducted from the final cost. Broilers will be picked up at our farm. Choose the week that works best for you:
